Message for Mikhail Prokhorov & International Criminal Court,

Today becomes clear in the media what we all know for a very long time:

'weapons of the Khadaffi-regime are now in hands of terrorists'.

This is with the approval of the International Criminal Court!

All those weapon-supplies of France, Nato...etc... increase terrorism.

Head-prosecutor mr Louis Moreno-Ocampo personally helped organizing this system, with all his lies about NL-politicians.

And his refusal to judge against EU-leaders.

And this is exactly what EU, UN & Kremlin want
= keep the war-industry alive at the cost of the building of state of laws.

Putin & Medvedev are supplying weapons to Syria.
These will end in the hands of terrorists too.

Putin & Medvedev are gambling with war & death bodies, because they
assume that they will stay in power for another 12 years.
They keep the Arab-war alive to keep themselves out of ICC-prison.
