Buckingham palace, Secretservices & NLF-readers,

I believe that the International Criminal Court causes the kdnapping of Europeans in Africa.

With the support of the Dutch Royal Family.

Whole Africa understands very well that the International Criminal Court keeps EU-leaders above the law.

ICc brainwashes african-people via NGOs... while Europeans may never discover 'what ICC is up to'.

In NL the Dutch Royal Family - via de Red Cross, Onderzoeksraad... and many other organisations - support the criminal acts of ICC.

The Dutch Royal Family = warcriminal family kept in their heroisch position thanks to the media.

I believe that we are now on the edge of new type of violence.

The new EU-treaty against the financial crisis is a FAKE treaty.

The current Stabiliteitspact - with the 3 percent budgetcontrole rule - is never brought into practice legally correct.

Every single nation can start a lawcase within the European Court of Justice against another single nation

with the demand :'You must pay me back the loan I gave you'.

This is good budget-controle.

But Presidents, Ministers and other politicians refuse to start lawcases against eachother, with the financial crisis as result.

EU will grow in weakness now ICC wants Europeans to be kidnapped & killed by terrorists.

All those talks of the NL Minister of External Affairs Rosenthal & Queen Beatrix will make this hel bigger.

What will happen when single EU-countries hand over their Draft Budget to the EU-commission, is that all new EU-law for civilians per country are founded in 100% Lobby & Corruption. Europeans will never know 'which business gets good deals - thanks to their inside look into the Draft budget - in ex-change for rotten EU-law for the people'.

In NL the poor & middle class families can't rent affordable houses anymore = bruto 33.000 euro year income - 25000 netto income - forces people to rent a house over 650 euro per month = far too expensive! We hardly have 650 euro houses.

So, families can't move anymore = rotten housing-market.

All thanks to the fact that Minister Donner and others are being blackmailed within the EU-commission, now ICC hides a lawcase against NL.

PVV Geertwilders is going to cause more violence agoanst the Moslim-world, also caused by ICC.

And perhaps we will get new elections for Parliament in NL soon, for all the wrong reasons = not 1 political party will tell Earth the truth about the criminal methods of working of ICC.

The biggest problem is that the media refuses to tell the truth about ICC over and over again...
