BRICS, Buckingham palace, North-Korea, Secret Services, IAEA, NCVO, NLF-readers, Mikhail Prokhorov,

Russia & China,

This is going to be a solution good for All of Us.

In my opinion it are Russia & China who cause the fact that North-Korea can't modernize today into a more Trade-like-country.

The International Criminal Court is in hands of 3 South-Korean dictators;

The President of S-Korea.
The ICC-president

UN Ban kimoon.

Russia & China have kept UN Ban kimoon in his seat for reasons of blackmail, favourism...and bullshit-talks.

Ban Kimoon should have been removed from the UN based on his letter to me that proves that he wants

ICC to be a concentrationkamp that keeps EU-leaders above the law.

I put Mededev & Putin in ICC-prison for this criminal act on their behalf based on the Torture-treaty.

This is the reason why Medvedev becomes PM of Russia again... and Putin is teasing his own people.

Putin wants to know if the RU-opposition is capable of taking over power at the Kremlin.

So far, Putin is right = 'the RU-opposition doesn't present its plans for the future of Russia'. This leaves Putin in his Kremlin-seat. which will cause riots in Russia.... to Arab-example.

Solution:

Only the truth about the methods of ICC will turn North-Korea into a more Trade-like-nation.

When the 3 South-Korean dictators today in charge of the highest Criminal Court on Earth in The Hague NL

are removed from the political arena, S- Korea can start new talks for a Fairtrade & Eko-economy.

Planet Earth will be cleaned up. ICC can't trigger new wars anymore.

S-Korea needs Skyscrapers for Vegetable-agriculture

= when they can build these in New York or St Petersburg, they can build them in S-Korea too!

S-Korea can skip large parts of the history... and move on the the 'making of new types of food in laboratories'.

How exciting! In NL we are not going to do this.

I do know the NL-wageningen-university has grown potatoes at sea... and alga for food, but this will not be on the market before 2014... I understand....

As long as UN Ban Kimoon is in his seat, wars on Earth will grow in number.

As long as South-Korea is in charge of ICC, more wars will arise ...even in EU & RU... and ASIA.

I believe IAEA is doing a rotten job = they ignore the fact that they refuse to implement HumanRight-treaties in their reports, to the disadvantage of EU-leaders.

IAEA also keeps ICC a Lobby & Assasinationcentre, to the favour of mainly USA.

USA only wants wars...

Can it be true 'that USA is poisoning Latin-America leaders'? Yes, it can....

USA will never poison NL-politicians because they keep Obama & Clinton out of ICC-prison.

Putin must ask the people to vote for Mikhail Prokhorov.

When Prokhorov is RU-president, Putin needs to become Head of the Fairtrade & Eko-commission in the Duma.

RU needs a fanatic movement into Fairtrade & Eko, to upgrade the brain of the people with. and to minimize the risk of EU-civilwars .

A Fairtrade & Eko movement requires a head of office that is familiar with the history of economics.

This side-tour is needed, because ...even when Earth knows the truth about the methods of ICC...it will take at least 1 year to replace all criminals working within ICC...and to restart procedures anchored in HR-treaties within ICC.
ICC needs procedures against EU-leaders.

At the moment ICC doesn't have any fair procedure at all.
Besides, the people in NL will wake up one day - they will finally accept that the NL-courtsystems are 100% corrupt, next to the Bar Association & Council for Legal aid- And they will learn that the media has broken down NL for fun.

NL-people will also be furious about the fact that ICC uses witnesses from prison in Africa... and that these witnesses want a political asylum in NL.
PVv Geertwilders....

When Russia has a large Fairtrade & Eko-movement with Putin as head, Putin can be removed from this job as soon as ICC had fair procedures.

Sergei Lavrov must become a member of Right Cause? so he can stay Min of External Affairs...as long as ICC is s concentrationcamp.

Medvedev wants a job in the High tech world...
He has made himself a criminal, so he won't be accepted everywhere.
Medvedev has to become RU-Embassador in NL... for the time being...

Its time you ALL accept the fact that Earth is at war, because your build the arrangements for it. Stop doing so.

And... last but not least...

The Kremlin needs a Dutch First Lady. Me....

For me its a rather simple job 'to talk people into peaceful-thinking', but I do need a powerful platform & office.

I believe that Russian people will enjoy it, to see me next to Mikhail...
I am not exactly Miss Stereotype, overhere.
