Proceedings in my case OTC-Cr- 407/07

Addressed to: Registrar

Dear madam, sir,

ICC did not send me a letter of receipt for my complaint of 7 february 2008, about the fact that rule 13 of Precedures & Evidence proves that ICC is partial to host-country NL.
This makes me very angry!

I'm a mother with 2 small kids, who are not aknowledged as human beings by ICC.
The fact that you give my freedom of speech online, does not mean my family is protected against 'crimes against humanity'.

I have more than enough of your discriminations of statemembers & victums.

And I have been patient enough too!

ICC is anchored in NL, not in the dessert, rain-forrest or weapon-depots ... which implies that you have to work with transparency - procedures, written documents & results to protect human bodies with - .

And I don't appreciated that you 'enjoy my writings'. I know you want me to have human rights, but when you refuse to work with a timeschedule, you only turn me into a slave and make me suffer more.

I want you to explain to me in writing:

- Did you send my file to Balkenende & co?
- Did you ask Balkenende & Co to send in a proposal for a settlement?
- Did you receive a response of them?
- Did you start an investigation on the terrorist-acts of the Dutch Supreme Court?
- What is the timeschedule for the suspects/perpatrators?
- When do I get victum-care to protect my family with against the municipal Bloemendaal?

I have enough of your manipulations in my private life.

Can you answer this letter - and the one of 7 febr 2008 - within a month?

It would be a sign of civilisation!

Add:

income-specimen of municipal Bloemendaal, which proves that they did undo 'stealing of money of my social security payment over the month january 2008'.
