Open Brief / Open Letter

to

- **Kremlin** -

Kremlin can NOT attack Georgie again for legal reasons

Medvedev,

Russia can not attack Georgie again; not even to protect civilians in sovereign-districts!

- You have started a lawcase against Georgie with ICC.
- Because Russia is no statemember, you or other RU-politicians can not be punished by ICC for 'war-making'.
When the final degree of an ICC-judge in case of Georgie is negative for you, the RU-Supreme Court has to judge against you.
- So far there is **no** prove that you want ICC to be a fair court of law.

Although you read my site weekly – and I'am still alive – your legal message to me is:
'D, I'd like you and your work and will use it too, even for peace. But I'am RU...and I don't want to get involved in NLFs for Europeans = I don't want Europeans to have acces to law or fair courtsystems. I know you are right = ICC is a Hitlercourt. But this is in my advantage! I want RU to be in charge of NLFs in my district and not ICC. I even want RU to be in charge in EU when ICC turns Earth into a complete war-circus.

How stupid can one be.....!?

I warned you:

'Your methods are only effective on the short-term'....

What should you have done?

- When you would have recongized me officially ...and even asked the RU-embassador in NL to work together with me for NLFs publicly... ICC would have been a more honest court-system.
- NL would have had New Elections, based on truth ...and our NL-parliament would have been more reliable in contracts... and in warzone....
- ICC would have implemented a transparent procedure for lawcases in EU, against EU-leaders who fail to keep their national Supreme court a fair court-system.
- My ICC-case would have ended in a settlement, good for All of Us.
- UN Ban Kimoon would have been replaced be a person who wants NLFs for 6.5 billion residents on Earth.
- NATO would have been cleaned up a little, so even there transparency would have triggered more peace in Afghan/Pakistan...enz..
- **YOU – Dmitri Medvedev – would not need to start a second war against Georgie, because people would have understood be now: 'how they can defend themselves with lawcases against their own parliament, in their Supreme court or ICC'. Georgie would not try to start new riots, neither would Russia.**

**ICC has to protect people under attack in Georgie,
now they have accepted the RU-case**

or

**ICC has to ask UN Security Council to come up with
a resolution against Georgie,
when they can't handle the situation on their own.**

+

**When Russia attacks Georgie today,
ICC can not judge against Georgie anymore...,
because ICC works like a catalyst...
for more war between 2 parties in ICC-courtroom!**

**You have just started a 'new war against RU' ...
....on the long run... ! Europeans will turn against RU.**
