New future for New Korea

2 june 2009

Kim Jong-un,

I want North-Korea to become a statemember of the Statute of Rome, The International Criminal Court.

Why?

I started a lawcase against the Netherlands on 1 may 2007, but ICC hides this case for the rest of the World.

Now, in NL people 'vote for war in EU-parliament on 4 june 2009'.

Balkenende & co – our media – do not publish truth about life in NL.

Creating war is the only way out.

Many people make PVV Geert Wilders a powerful person in the EU-parliament, so EU & UN have to admit that 'NL is a dictatoship'.

Read page Presidents'office.

When North-Korea becomes a statemember of ICC, this gives you the opportunity 'to clean up this corrupt Int. Court of Criminal Law in The Hague ... and 'improve & polish the image of North-Korea for more Peace & Justice'.

Have a straightforward day,
